

GET READY TO SIGN UP FOR BENEFITS

One of the best ways to protect your health—physical, mental, and financial—is by having the right health plan and making the most of your benefits. Since it's almost open enrollment, take time now to get ready:

- Learn about the benefits being offered.
- Ask questions.
- Compare any options you have.

Unless you have a big change in your life such as getting married or having a child, this is your one chance this year to sign up for health insurance. Don't miss it!
